

Plan for tomorrow, today. Strategic energy planning starts here.

Join the 2025 Strategic Energy Management (SEM) Schools and Colleges Cohort!

By enrolling in the SEM program, you will have access to exclusive resources and support:

Energy Coaching

Receive expert energy management assistance to streamline and optimize your operations strategy.

Peer-to-Peer Learning

Collaborate with regional peers in regular workshops to exchange insights and share best practices.

Cash Incentives

Unlock up to \$10,000 in milestone earnings, while making impactful changes to campus facilities.

Cut Costs and Elevate Your Operations

SEM goes **well beyond equipment upgrades** by providing you with the tools and strategies to deliver long-term, sustained savings.

Benefits of the program include:

- **Track Energy Trends** – Utilize the program’s real-time energy tracking tools to visualize, quantify, and report energy reductions.
- **Engage Stakeholders** – Share energy and cost reduction insights to spark interest amongst students, teachers, and staff. Foster support for your energy reduction initiatives.
- **Reinvest Cost Savings** – Low- to no-cost projects help the average school reduce costs by 2% annually. Reinvest in your operations & maintenance (O&M) plans to continue seeing savings year after year.
- **Define Your Sustainability Goals** – Quantify energy reductions to add rigor and credibility to sustainability goals.
- **Ensure a Lasting Impact** – Empower your workforce to secure future energy savings with free workshops, customized consulting, audits, and ongoing support.
