

# Upgrade Your Water Infrastructure with Maximum Savings!

There's never been a better time to enhance your water infrastructure with SoCalREN's high-impact, cost-effective upgrades.

## Why Choose SoCalREN?

### Maximize incentives for equipment upgrades

- ✓ Boost savings with pump overhauls, process boiler replacements, irrigation VFDs, pump/process controls, system optimization, pipe and tank insulation, and the new-for-2026 circulating block heater measure.
- ✓ Incentives can cover up to 100% of costs for qualifying pipe insulation projects, subject to project scope review.

*Available to water and wastewater agencies, special districts, local government agencies,, and other public entities with active SCE and/or SoCalGas accounts paying the Public Purpose Programs (PPP) charge.*

### Expert, personalized support

- ✓ Cut costs and boost efficiency with targeted solutions tailored to your energy goals and needs.
- ✓ Receive no-cost technical assistance and project management support to help identify projects, quantify savings potential through engineering calculations, apply for funding, and verify savings.

### Flexible financing options and procurement support

- ✓ Bundle incentives with SoCalREN's 0% interest Revolving Savings Fund or Southern California Edison's and SoCalGas' 0% interest On-Bill Financing.
- ✓ Connect with qualified contractors and expedite the procurement process to start saving sooner.
