

Find Your Future in the Architecture, Construction, Engineering Students (ACES) Pathway Program

ACES helps you achieve your higher education goals while in high school. You also get:

- **A head start in earning college credits** you can transfer to the University of California or California State University.
- **Access to paid summer internships** and well-paid green career jobs.
- **Hands-on experience** to prepare for career success.
- **Access to professional mentors** who help you learn and remain motivated.
- **Work readiness** and financial literacy training.
- **Financial help** to cover the cost of work gear, plus training and enrollment fees.

Participating High Schools

- Alhambra High School
- Mark Keppel High School
- Maywood Center for Enriched Studies (MaCES) Magnet
- San Gabriel High School
- South East High School
- STEAM Legacy High School
- Sylmar Biotech Health & Engineering Magnet
- Tehachapi High School

40% of ACES participants are female!

How ACES Works

Career Access

With ACES, you participate in industry seminars and field trips to learn about exciting careers in STEAM fields such as:

- Architecture
- Construction
- Engineering
- Fuel Cell Technology
- Hydrogen Technology
- Advanced Manufacturing
- Renewable Energy
- Surveying
- Sustainability

Get Started

Students in grades 9–12 who attend participating high schools are eligible.

To apply, submit an Interest Form at socalren.org/ACES/Interest.
A program representative will reach out to you once we receive your Interest Form.

For questions and more information, contact WET@socalren.org or visit socalren.org/ACES.
